

ALEX C. BERGER

DATA SCIENTIST | DEVELOPER

ALEX.CRAIG.BERGER@OUTLOOK.COM | [HTTPS://ALEX-BERGER.ME/](https://alex-berger.me/) | [HTTPS://WWW.LINKEDIN.COM/IN/ALEXCBERGER/](https://www.linkedin.com/in/alexcberger/)

SUMMARY

Data scientist with 2+ years of experience developing predictive models, automating data pipelines, and delivering high-visibility analytics solutions to executive stakeholders. Built and deployed ensemble models, end-to-end Power BI dashboards, and full-stack data applications across institutional and commercial environments. M.S. in Data Science with a concentration in AI and Big Data, combining strong engineering fundamentals with hands-on ML development.

EXPERIENCE

Data Analyst for Institutional Research

August 2023 – Present

Cedar Crest College | Allentown, PA

- **Designed and developed** 15+ interactive Power BI dashboards from the ground up, including end-to-end data collection, processing, table linking, and custom DAX measures. serving cabinet-level and trustee audiences as well as each academic department across the institution.
- **Administered** comprehensive course evaluation survey program serving 1300+ students per semester, implementing strategic outreach strategies that increased response rates from 40% to 60%.
- **Oversaw** federal compliance reporting including IPEDS submissions, maintaining 100% accuracy with Department of Education requirements while implementing automated data validation systems.
- **Trained and upskilled** staff across multiple departments on Power BI usage and coordinated cross-departmental data pipelines to ensure consistent, reliable reporting infrastructure.

FREELANCE/CONTRACT WORK

Software & Database Consultant

October 2025 – January 2026

- Diagnosed and resolved software bugs to improve application stability and code quality.
- Architected and configured a Supabase database including schema design, security policies, and row-level security (RLS) to ensure proper access control.
- Executed data migration from legacy systems into Supabase, ensuring data integrity throughout the transition.

Retail Sales Forecasting Dashboard

May 2023 – September 2023

- Led the data and ML development for a retail sales forecasting solution, partnering with a small e-commerce team to deliver an end-to-end predictive analytics platform built on Python, Power BI, and SQL
- Engineered a stacked ensemble model to forecast weekly sales with up to 85% accuracy
- Built an automated data pipeline integrating Shopify and Amazon enabling real-time sales performance tracking

EDUCATION

Master of Science | Data Science

May 2026

New Jersey Institute of Technology | Newark, NJ

Bachelor of Science | Data Science

May 2023

Eastern University | St. Davids, PA

SKILLS

Languages: Python, R, SQL, JavaScript, TypeScript, C++, Julia, DAX/M

Machine Learning & AI: Supervised/Unsupervised Learning, Neural Networks, NLP, Computer Vision, Time Series Analysis, Ensemble Methods, Hyperparameter Tuning, Model Deployment

Data & Analytics: Feature Engineering, Statistical Modeling, Predictive Analytics, Exploratory Data Analysis, Model Evaluation & Validation

Visualization & BI: Power BI, Tableau, Excel

Databases & Data Engineering: PostgreSQL, MySQL, SQL Server, MongoDB, Apache Spark, Hadoop, ETL/ELT, Data Warehousing

Cloud & DevOps: Microsoft Azure, AWS, GCP, Docker, Git, Azure Data Studio
